Today it's important to use modern ways to reach the public on the subjects that affect all of us. It takes more than one flyer or email to get the message across and inspire action. A multi message campaign is key with pro video & graphics—shared through all modern outlets. **Get More Visibility – Share Information – Gain Customers – Leave Your Legacy**

SEVERN MEDIA works with you to write and create the campaign that will be most effective

We create a moving video pieces with interviews, cinematic videography, still images, graphics and music that can be shared any way you want to. From full length documentaries to short pieces for website & Social Media content, e-Newsletters or to preserve history. **Specializing in environmental, educational & community communication.**

Marketing Video Production Documentation Training Web Content Social Media

SEVERN MEDIA also can create **Online Training Courses** for education or certification. Using the newest interactive animated Powerpoint program and informative video pieces that keep the viewer engaged, information retained and allows testing.

Severn Media's Scott Hymes is a specialist in Bay Restoration policy and techniques and marketed Maryland's Green Initiative "Smart, Green & Growing" for the Maryland Department of Natural Resources creating media to communicate the complex work of the State to the public to build support and recognition.
